

Meadowmat flowering times

Cottage Gardens Meadowmat

Cottage Garden Mix Meadowmat creates flower beds and borders with the grace and charm of an old fashioned English garden but a lot less work.

If you love to see nodding flower heads, buzzing bees and jewel-like colours combined with swaying grasses, you'll adore Cottage Garden Mix Meadowmat.

We've mixed native wildflowers and grasses with some of their closely related but more colourful cousins to create a vibrant and bee-friendly "cottage garden on a roll". Install Cottage Garden Mix Meadowmat for low maintenance borders with plenty of summer interest.

Flowering times vary according to weather conditions, microclimate, plant species and time of installation. Lay Cottage Garden Mix Meadowmat on top of spring and summer flowering bulbs for an even longer flowering period.
