

Meadowmat

Birds & Bees Seed Mix

- **Available from** www.turfonline.co.uk
- **Standard Size** Available in various quantities.
Sowing Rate 5g/m².
- **Growth**
Turfonline Birds & Bees FLL Meadowmat Seed Mix is a blend 41 native wildflowers specially selected to be pollinator friendly. Many of the species are perennial which means they will flower every year if the conditions are suitable. Having no grass species in the mix results in a more colourful mix that is also suitable for green roof installations.
- **Typical Seed Mixture***
100% Native Wildflowers: Agrimony, Autumn Hawkbit, Birdsfoot Trefoil, Bladder Campion, Chicory, Clustered Bellflower, Columbine, Common Daisy, Common Mallow, Common Sorrel, Common Toadflax, Cornflower, Fennel, Field Poppy, Fox And Cubs, Foxglove Grandmothers Garden, Greater Knapweed, Harebell, Maiden Pink, Meadow Buttercup, Meadow Cranes-Bill, Musk Mallow Purple Loosestrife, Ragged Robin, Red Campion, Red Clover Sheeps Bit Scabious, Small Scabious, Tansy, Teasel, Viper's Bugloss White Campion, White Clover, Wild Basil, Wild Carrot, Wild Clary Wild Marjoram, Wild Pansy, Wild Thyme, Yarrow

Biodiverse landscaping schemes.
Low maintenance areas.
Commercial landscaping.
Urban areas and parks.
Domestic gardens.
Areas requiring maximum colour and interest.
Green Roofs.
- **Flowering Time**
Flowers from January to December (dependant on local weather conditions) peak flowering is from June to October.

With no grasses, this 100% wildflower seed mix is ideal for use on green roofs or areas where a florally focussed display of colour is required.

Features

- 100% wildflower mix
- Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds
- Contains perennial, annual and bi-annual species to ensure a varied display each year.
- Environmentally friendly requiring no fertilisers or pesticides.
- Low maintenance – does not require regular mowing.
- Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil or substrate mix.

*When grown the actual percentage of each species contained may vary due to environmental factors. Turfonline makes every effort to ensure wildflower products are free from weeds seeds, however due to the natural way in which these seeds are collected we cannot guarantee they are 100% weed free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a wildflower area that will adapt to individual settings which may mean some species are more successful than others. Contains annual bi-annual and perennial species.

** The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at rhs.org.uk/plantsforpollinators
